

CHANGE IS GOOD

PRECISION SOLVENT CLEANERS

- ▲ Superior AK225 replacements
- ▲ Powerful flux remover, degreaser and precision contact cleaner
- ▲ Nonflammable and fast drying
- ▲ Non-corrosive, safe for metals
- ▲ Low GWP and VOC
- ▲ Contains no ozone depleting compounds

 **Chemtronics**[®]
Nothing Performs Like Chemtronics

BREAKTHROUGH NEW SOLVENT TECHNOLOGY

Chemtronics has engineered powerful new precision solvent cleaners that are ideal replacements for AK225 and other banned chemicals. New environmental restrictions have forced facilities to search for and evaluate new cleaning products. With Chemtronics Delta Precision Solvent Cleaners, **change is good... really good!**

Being forced to change your cleaning process after 20-years can be a challenge, but moving to the latest technology has many advantages that will improve your quality and efficiency. Delta Precision Solvents are nonflammable, have outstanding cleaning performance, and fast, residue-free evaporation. Pure performance without the trade-offs!

Make the change to Chemtronics Delta Precision Cleaners!

FLUX-OFF® DELTA™ Flux Remover

Powerful, nonflammable solvent removes heavily encrusted and oxidized flux deposits. Penetrates residues quickly to remove all types of flux, production contaminants, dust, and oil, then evaporates quickly leaving no residues.

- ▲ Powerful cleaner removes all R, RA, RMA, and synthetic fluxes
- ▲ Removes white residues
- ▲ Nonflammable and fast drying
- ▲ Non-corrosive, safe for metals
- ▲ No ozone depleting compounds, low VOC and GWP
- ▲ All-Way Spray valve - even sprays upside down

DEL892B	6 oz / 170 g BrushClean™ System	DEL592	5 gal / 18.5 L liquid
DEL1692	12 oz / 340 g aerosol	DEL5592	53 gal / 200 L liquid
DEL192	1 gal / 3.7 L liquid		

ELECTRO-WASH® DELTA™ Cleaner Degreaser

Extra strength, nonflammable cleaner removes all contaminants, and then evaporates quickly without residue. Outstanding solvency for heavily oxidized hydrocarbon or silicone grease and oil residues. Effective at removing most no-clean and rosin fluxes in circuit board rework and repair.

- ▲ Removes encrusted oil, grease, dirt, flux, gum rosin and other contaminants
- ▲ May be used on energized equipment
- ▲ Nonflammable and fast drying
- ▲ Noncorrosive, safe for metals
- ▲ No ozone depleting compounds, low VOC and GWP
- ▲ All-Way Spray valve - even sprays upside down

DEL1601	12 oz / 340 g aerosol	DEL501	5 gal / 18.5 L liquid
DEL2201	19 oz / 538 g aerosol	DEL5501	53 gal / 200 L liquid
DEL101	1 gal / 3.7 L liquid		

POW-R-WASH™ DELTA™ Electronics Contact Cleaner

Highly efficient and effective solvent cleaner for electrical and electronic components and assemblies. Nonflammable, and compatible with most metals and plastics found in electronic assemblies. Safe on energized equipment, fast drying and has excellent solvency for oil, grease, dirt.

- ▲ Rapidly cleans dirt, oils, carbon, grease and other contaminants
- ▲ May be used on energized equipment
- ▲ Nonflammable and fast drying
- ▲ Excellent material compatibility
- ▲ Displaces moisture and leaves no residues
- ▲ No ozone depleting compounds, low VOC and GWP
- ▲ All-Way Spray valve - even sprays upside down

DEL1681 12 oz / 340 g aerosol
